

A map of the United States with states colored in various shades of blue, representing incident counts. The colors range from light blue (lowest count) to dark blue (highest count). California is the darkest blue, indicating the highest number of incidents. Other states with higher counts include Texas, Florida, and New York. Most other states are in lighter shades of blue. The map includes labels for major bodies of water (Pacific Ocean, Atlantic Ocean, Gulf of Mexico, Caribbean Sea, etc.) and neighboring countries (Canada, Mexico, etc.).
